Hand Made in Slovenia - Europe

Introduction

Welcome to our unique designer fashion product catalogue

De Kontlér – Designer Pet Leather Accessories is brand of Mataja, Matic Vukič s.p., from Slovenia. All our products are designed and hand crafted by experienced craftsmans in Slovenia which makes our products quality made, reliable and unique. We use best quality materials for our products to bring your beloved companion best experience with our dog leather collars and leather leads.

What makes our products so special:

1. Every day your pet will wear something what is made from natural and skin-friendly material, which can be compared to this, when Miss or Mrs. puts on a nice, special leather bag, accompanied by envious and admiring views. We are sure, that you will be so excited and consider getting a variety of collars and leads for your dog for different occasions or just for a little change in time of week.

2. Our collars and leads can be a great combination and match with color of your daily clothes. We also thought of you, who have two dogs at home, which you can take on a elegant and coordinated walk on the same lead with our double lead »Coupler«.

3. Since you are guaranteed that such collars and leads are not sold anywhere in the world, the originality is guaranteed by our brand »De Kontlér«. So if a the disaster happens and your pet is lost, the finder can also describe his very special dog by design of De Kontlér collar or lead that your dog was wearing at the time. But hopefully this will never happen and that you will purchase our hand made products only in your and and your dog satisfaction.

4. Many times happens, when you need to buy a gift and thinking what to buy, that the one who recieves it, will be really happy and surprised with something special and new. It can be very inconvenient if you find out, that it received the same gift from someone else. This can also happen if you devote your gift to the dog, your own or someones other.

With our selection of leather collars and leads, this can't happen because they are one of a kind and unique products.
